

These Are The Days

Gotthard

Good old days, like a dream
As time goes on, the better they seem
All the best is in the past
Am I sure? Cause it sure didn't last

I keep moving forward
But I keep looking back
What I think I remember
Is way better, better than fact

These are the days I'll think are the best
These are the days I'll never forget
The past is the past, I always say
Those were the best times
But these are the days These are the days

Here and now, I can see
As you stand here right in front of me
Life is now, all the way
Let's live it like it's our last day

Let's be in the moment
Baby let's make it last
Forget about the future
And forget about the past

These are the days we'll think are the best
These are the days we'll never forget
The past is the past, I always say
Those were the best times
But these are the days These are the days
These are the days

Good old days, like a dream
As time goes on, the better they seem
All the best is in the past
Am I sure? Cause it sure didn't last

Oh... Yesterday's over
And tomorrow is blind
Right now we're together, together
Living the best days of our lives

These are the days
