Top of the World

Gotthard

Hello, hello, hello
Is there anybody listening in the crowd ?
Don't think twice
Ain't gonna waste no more time

The clock's running
And I see the end of the line
It's calling
So watch me leave em all behind

You can turn me loose, you can call my name
I'll keep climbing higher
I will touch the sky, as the eagle flies
On my way to be there
Right on top of the world

Hello, hello, hello
Now I'm rolling like a freight train down the track
Don't look back,
Don't try to get in my way

Oh I'm coming
Eell I've got my eye on the flame
And I'm running
'Cause I was born to play the game

You can turn me loose, you can call my name
I'll keep climbing higher
I will touch the sky, as the eagle flies
On my way to be there
Right on top of the world, oh

It's not an illusion
This is my one desire
There's no confusion
Well I can set the world on fire

You can turn me loose, you can call my name
I'll keep climbing higher
I will touch the sky, as the eagle flies
On my way to be there
Right on top of the world, oh
I'm on fire
On my way to be there
Right on top of the world
