

Burning Point

Gov't Mule

Hey, let me

Are we that much different?
Tell me what can bring us together
Drawing lines in the sand
Never does make things any better

We're testing ourselves
To see if we're gonna survive
All this rampant stupidity
Seems to be spreading like fire

We're pushing it to the burning point
Whole thing's going up in flames
Somebody tell me
Has the whole world gone insane?
Oh

We protect ourselves
Guess we're wired that way
But who is the enemy at the end of the day?

Locking each other out
Is only locking ourselves in
Solitary solitude ain't never gonna be our friend

Pushing it to the burning point
Whole thing's going up in flames
Somebody tell me
Has the whole world gone insane?

Burning point
Us in all our glory
And when the smoke finally clears
Ain't nothing left but the story

Jimmie
Jimmie
Ah yeah
Keep pushing that
Keep on pushing it

Hell, we keep on testing ourselves
To see if we're gonna survive

Burning point
Whole thing's going up in flames
Somebody tell me
Has the whole world gone insane?

Pushing it to the burning point
Us in all our glory
When the smoke finally clears
Yeah when the smoke finally clears
I said when the smoke finally clears
Ain't nothing left but the story
Ain't nothing left

Nothing left but the story
Ain't nothing left but the story
