

# Hammer and Nails

Gov't Mule

It takes more, more than a hammer  
More than a hammer and nails  
It takes more than a hammer and nails  
To make a house a home  
To make a house a home  
To make a house a home  
To make a house a home

It takes a firm foundation built on faith and love  
With a whole lot of guidance from up above  
Show your neighbor what a friend is for  
With an open heart and an open door  
When your first one reaches for its' mothers' breasts  
He Knows up from down and he knows east from west

It takes more, more than a hammer  
More than a hammer and nails  
It takes more than a hammer and nails  
To make a house a home  
To make a house a home  
To make a house a home  
To make a house a home

It takes more, more than a hammer  
More than a hammer and nails  
It takes more than a hammer and nails  
To make a house a home  
To make a house a home  
To make a house a home  
To make a house a home

It takes a firm foundation build on truth and thrust  
So your wood won't rot and your nails won't rust  
So when your for first one reaches for its' mothers' breasts  
He knows up from down, and he knows east from west  
Show your neighbor what a friend is for  
With an open heart and an open door

It takes more, more than a hammer  
More than a hammer and nails  
It takes more than a hammer and nails  
To make a house a home  
To make a house a home  
To make a house a home  
To make a house a home

It takes more, more than a hammer  
More than a hammer and nails  
It takes more than a hammer and nails  
To make a house a home  
To make a house a home  
To make a house a home  
To make a house a home
