

# Pressure Under Fire

Gov't Mule

Just another song about the same thing  
So many have been written  
By now you'd think we know better  
Maybe just one lonely voice  
Is never gonna be enough  
We've all got to sing it together

Oh, we're all fighting the same fight  
We're all traveling down life's road  
There's only so much you can do by yourself  
People, we got to share the load  
Yeah, we got to share the load

The next sound you hear  
Pressure under fire  
Living in fear  
Of what we don't understand  
It all seems so clear  
Pressure under fire  
Ain't no way to live in this land

We all know how this ends  
So many times, so many places  
By now you'd think we'd have learned  
From any one of those times  
That it blew up in our faces  
How many times can you be burned?

We keep on moving in the wrong direction  
Oh, we keep on heading down the same old track  
There's only so much you can take  
Only so many times we can turn our backs  
People, we can't keep turning our backs

The next sound you hear  
Pressure under fire  
Living in fear  
Of what we don't understand  
It all seems so clear  
Pressure under fire  
Ain't no way to live in this land

And a wise man said  
Human race is the only race  
Oh, you can't dispel darkness with darkness  
It's been said so many times  
We got to learn to work together  
If we're gonna get out of this mess

Just another song about the same thing  
So many have been sung  
By now you'd think we know better

The next sound you hear  
Pressure under fire  
Living in fear  
Of what we don't understand

It all seems so clear  
Pressure under fire  
Ain't no way to live in this land

Pressure under fire  
Living in fear  
Of what we don't understand  
It all seems so clear  
Pressure under fire  
Ain't no way to live in this land  
No way to live  
Oh  
No way to live in this land
