

Rebel With A Cause

Gov't Mule

And I'm a rebel with a cause just because
Of the cause that they have caused
Rebel with a cause just because
Of the cause that they have caused

So many innocent children in the ghet' town
Sometimes they don't have a bite to eat
Children forced to buy apple, everyday

Unring the bell, it's time, it's time
Take back what we had, it's yours and mine, yeah

A rebel with a cause just because
Of the cause that they have caused
Rebel with a cause just because
Of the cause that they have caused

See everyone is blamin' the other man
And no one really want to take a stand
Standin' up for equal rights of justice
Anyway, everywhere now, stand now here
(Unring the bell)

'Cause I'm a rebel with a cause, it's time
Take back what we had
Just because of the cause

Of the cause that they have caused
Of the cause that they have caused

Rebel with a, rebel with a
Rebel with a cause just because

Flyin' machines to missions to the moon
Well, Babylon is burnin' in the pale afternoon
Unring the bell, it's time, it's time
'Cause I'm a rebel, I'm now a rebel with a cause just because

There's a revolution goin' on
And you see it's there still down here
Unring the bell before it's too late
Oh yeah
