

Give In

Gowan

Why do you insist on running
When your back's against the wall
You've been chased into this corner
And I know you're bound to fall

Give in
Can't you see I beat you now
Give in
There's no escaping anyhow
But you try all in vain
Turn around, back again
Can't you see this is me
On the move
I got to get to you

You know it's what I got to do
I've been on the trail a long time
Now I'm gonna put you into line

Come on give in to me now

Well you might have made it last time
When you had me on the take
But the pressure's on you this time
And I know you're going to break

Give in
Can't you see you're stuck with me
Give in
And that's the way it's got to be
And you know that you're beat
And the plan is complete
Can't you see, this is me
On the move
I got to get to you
Give in
There's no escaping anyhow
