

## Jet White

Gowan

You're in a tight spot  
Trying to take your best shot  
You're in a deep mine  
Looking for the sunshine  
You're on the high ground  
Trying to get the low-down  
You're on the South Pole  
Trying to find a black hole

Jet white  
Standing in the black night  
Staring at the moonlight  
Steady as you go  
Jet white  
Now you feel the cold bite  
Now it doesn't taste right  
But how are you to know  
When you need it

You want a hot tip  
Get yourself a hot line  
You want a round trip  
Get back in the bread line  
You want a big bite  
Get yourself a big knife  
You want to live long  
Get yourself a long life

Jet white  
Standing in the black night  
Staring at the moonlight  
Steady as you go  
Jet white  
Now you feel the cold bite  
Now it doesn't taste right  
But how are you to know  
When you need it
