

Downgraded

GRAACE

You love the busy days that keep me off your mind
You hate it when she says it's gunna be alright
I bet you look right through her don't cha bet you see me in your mind
Every time, every time

Sorry I never called, I had better things to do
Than sit here and talk to you
About when everything was better for you
Is she still asleep, sleepin' in your room
Where I used to, where I used to

So I heard that you downgraded
She took you off my hands
And I could be mad at that
But I got other plans
Yeah I heard that you downgraded
'Cause I was the best you had
You know that that's why you comin' back

Do you lie awake thinking of the mess you made
Lying in the bed you made with her, with her
So full of regret but I forgive you
Cause I don't really miss you, as much as you miss me
So baby keep calling and I'll let my phone ring

Text me and tell me off I've got better things to do
I don't wanna talk to you, about when everything was better for you
Does she know my name, does she ease your pain
Like I used to, like I used to

So I heard that you downgraded
She took you off my hands
And I could be mad at that
But I got other plans
Yeah I heard that you downgraded
'Cause I was the best you had
You know that that's why you comin' back

So keep me in your past
Keep me in your past
Keep me in your past
Where I belong
Where I belong
I can only be so sad
Only be so sad
Keep me in your past
Where I belong
Where I belong

Sorry I never called, but that's just the way it goes
When two people fall apart
And after what we've been through

So I heard that you downgraded
She took you off my hands
And I could be mad at that
But I got other plans

Yeah I heard that you downgraded
'Cause I was the best you had
You know that that's why you comin' back

So keep me in your past
Keep me in your past
Keep me in your past
Where I belong
Where I belong
I can only be so sad
Only be so sad
Keep me in your past
Where I belong
Where I belong

Sorry I never called, but that's just the way it goes
So I heard that you downgraded
