

Have Fun At Your Party

GRAACE

Damn I'm a mess
Just another morning hungover in someone's bed
I did it again
I forget every time how it feels in my head
(Feels in my head)

If I say I'm fine would you ever believe me?
Got me dialing 911 can you come save me?
Or did I let you down again, did I go crazy?
Did I go crazy?
Crazy

Go have fun at your party
I'll be sitting here sipping on thoughts of your body
Now you calling me late and I'm sloppy
Go have fun at your party
I'll be sitting here sipping on thoughts of your body
Now you're calling me late and I'm sloppy

I don't even know
Every time what I'm trying to do to myself
'Cause I get high then I go home and when I drive I'm on my phone
I can't stop thinking of ya when I'm alone

If I say I'm fine would you ever believe me?
Got me dialing 911 can you come save me?
Or did I let you down again, did I go crazy?
Did I go crazy?
Crazy

Go have fun at your party
I'll be sitting here sipping on thoughts of your body
Now you calling me late and I'm sloppy
Go have fun at your party
I'll be sitting here sipping on thoughts of your body
Now you're calling me late and I'm sloppy

Don't ask me to go out you know that I don't even like to party
So I said no now you're probably getting down low with some girls that dance
well probably

Go have fun at your party
I'll be sitting here sipping on thoughts of your body
Now you calling me late and I'm sloppy

Go have fun at your party
I'll be sitting here sipping on thoughts of your body
Now you're calling me late and I'm sloppy
(Calling late I'm sloppy)

Go have fun at your party
I'll be sitting here sipping on thoughts of your body
Now you calling me late and I'm sloppy

Go have fun at your party
I'll be sitting here sipping on thoughts of your body
Now you're calling me late and I'm sloppy
