

Her

GRAACE

Twenty-one
You used to say that we're forever love
I guess forever to you ain't that long
Laugh it off
I'm getting way too good at switching off
Pretending it was never really love

And they hate, hate that I talk about you so much
Personally I don't think it's enough
'Cause nothing I say will take her away from you

I wanna know everything she does
And every little move that makes you blush
And why she got you
Does she feel anything like us?
'Cause now you got me thinking 'bout her touch
And why she got you

Hysterical
I know I said I wouldn't care at all
I'd hear your name and it'd be bearable

And they hate, hate that I talk about you so much
Personally, I don't think it's enough
'Cause nothing I say will take her away from you

I wanna know everything she does
And every little move that makes you blush
And why she got you
Does she feel anything like us?
'Cause now you got me thinking 'bout her touch
And why she got you

I wanna know everything she does
And every little move that makes you blush
And why she got you
Does she feel anything like us?
'Cause now you got me thinking 'bout her touch
And why she got you

I wanna know everything she does
And every little move that makes you blush
And why she got you
Does she feel anything like us?
'Cause now you got me thinking 'bout her touch
And why she got you
