

Me Without You

GRAACE

I know I'm not supposed to say this
But I think of your face most days
And I know I definitely shouldn't say this
But sometimes I try to think of way
To split up you and your new girl
'Cause I don't like the pictures that I'm seeing
I should probably stop searching your name
But I'm missing your face evening

I don't like me without you
Oh, I miss you
I don't like the pictures that I'm in anymore
'Cause they don't have you

I miss the way our skin would kiss
When we were driving down the road
I miss how I secretly watch you singing
To every song we call our own
So jump in the car and roll the windows down
The silence wasn't nice, but we played the music loud
Baby, I was always your co-pilot
But now my car is always way too silent

I don't like me without you
Oh, I miss you
I don't like the pictures that I'm in anymore
'Cause they don't have you

I don't like me without you
Oh, I miss you
I don't like the pictures that I'm in anymore
'Cause they don't have you
