

# Miss You Babe

GRAACE

Eyes green as always  
I'm swimming through my friends hallways  
I need to find my way out of this place

If you found me now in this shitty place  
Would you spin me around? Would your heart still race?  
Cause I found something that I can't get back  
How could I do that?

And I don't need to call  
But know that it's what I want  
Just wanna say that I miss you babe  
And now I'm holding on  
Cause it's you that I want when I'm drunk  
Just wanna say that I miss you babe

Turning corners and hoping  
Wine fuelled and barely coping  
I'd like to make a few more mistakes

If you found me now in this shitty place  
Would you spin me around? Would your heart still race?

And I don't need to call  
But know that it's what I want  
Just wanna say that I miss you babe  
And now I'm holding on  
Cause it's you that I want when I'm drunk  
Just wanna say that I miss you babe

And I don't need to call  
But know that it's what I want  
Just wanna say that I miss you babe  
And now I'm holding on  
Cause it's you that I want when I'm drunk  
Just wanna say that I miss you babe

And I don't need to call  
But know that it's what I want  
Just wanna say that I miss you babe  
And now I'm holding on  
Cause it's you that I want when I'm drunk  
Just wanna say that I miss you babe
