

You Do You

GRAACE

Oh my you get me high
Holding touching me right
Oh my every night
Leave here you wanna slide

Baby, tell it to my face I know you feel it, I know you feel it
Baby, tell it to my face I know you need it, I know you need it

You just do you, and I'll just do me
You know that I could blow your mind, leave you guessing every
time
You just do you, and I'll just do me
You know that I could blow your mind, I can see it in your eyes

See that look on your face
Me on you, little white lace
We're summertime in 89
Quiet now she's on your case

Baby, tell it to my face I know you feel it, I know you feel it
Baby, tell it to my face I know you need it, I know you need it

You just do you, and I'll just do me
You know that I could blow your mind, leave you guessing every
time
You just do you, and I'll just do me
You know that I could blow your mind, I can see it in your eyes

Baby, I know you feel it
Baby, I know you need it

You just do you, and I'll just do me
You knowthat I could blow your mind, leave you guessing every t
ime
You just do you, and I'll just do me
You know that I could blow your mind, I can see it in your eyes
