

Comedown

Grabbitz

When you leave there's a comedown
Like I was high on a drug
You're so easy to love now
I couldn't die with enough, hmm

But then there's this that I'm feeling
It has to even me out
When you're around
Is the only moment
That I'm not coming down
When you're around
Is the only moment
That I'm not coming down

I need to forgive, God, oh, hold on me
How do you take away my pain
But let the pleasure take control of me
While it electrifies my brain

But did you not know that you would do this?
Did you not think about it first?
Didn't you know that my addiction would be slowly getting worse?
But then when you go, I try my best to block the door
'Cause I know how bad it hurts
And it hurts, oh

'Cause when you leave there's a comedown (When you leave there's a comedown)
Like I was high on a drug (Like I was high on a drug)
You're so easy to love now (You're so easy to love now)
I couldn't die with enough, hmm (I couldn't die with enough)

Then there's this that I'm feeling
It has to even me out
When you're around
Is the only moment
That I'm not coming down
When you're around
Is the only moment
That I'm not coming down

Did you not know that you would do this?
Did you not think about it first?
Didn't you know that my addiction would be slowly getting worse?
But then when you go, I try my best to block the door
'Cause I know how bad it hurts
And it hurts

'Cause when you leave there's a comedown (When you leave there's a comedown)
Like I was high on a drug (Like I was high on a drug)
You're so easy to love now (You're just so easy to love now)
I couldn't die with enough, hmm (Oh, I couldn't die, oh yeah)

But there's this that I'm feeling (Oh, there's this that I'm feeling)
It has to even me out (It has to even me out)
When you're around
Is the only moment (The only moment)
That I'm not coming down (I'm not coming down)

When you're around (When you're around)
Is the only moment
That I'm not coming down
