Grabbitz

Yeah, hold me down
I wanna see what you look like
When I'm not around
I wanna see what you look like
Underground
I wanna see what you look like
When nothing's alright
When nothing's alright

Will you bring me (will you bring me) 'round?
I've been waiting (I've been waiting)
Are you leaving (are you leaving) town?
I'm contemplating

All I do is hide my face
I think it all; I got a lot to say
Changed my mind a million ways (I'm contemplating)
I think it all until it drives away

All I do is hide my face
I think it all; I got a lot to say
All I do is contemplate (I'm contemplating)
I think it all until it drives away

(I'm contemplating)
All I do is contemplate
(Oooh)
All I do is contemplate

Hold me down
I wanna see what you're like
When I'm out of town
I wanna see what you're like
When I'm not around
I wanna see what you're like
When nothing's alright
When nothing's alright

Will you bring me 'round?
I've been waiting
Are you leaving town?
I'm contemplating

I'm contemplating

All I do is hide my face
I think it all; I got a lot to say
Changed my mind a million ways (I'm contemplating)
I think it all until it drives away

All I do is hide my face
I think it all; I got a lot to say
All I do is contemplate (I'm contemplating)
I think it all until it drives away

All I do is hide my face
I think it all; I got a lot to say

Changed my mind a million ways (I'm contemplating)
I think it all until it drives away

All I do is hide my face
I think it all; I got a lot to say
All I do is contemplate (I'm contemplating)
I think it all until it drives away

All I do is contemplate
All I do is contemplate
