

Float Away

Grabbitz

I'll tell you a story about me and you
Out on the water surrounded by the blue
They scream that only I'll be saved
They toss out the line but I just let it float away

Yeah, I'll let it float away
I'll let it float away
I'll let it float away, float away, float away
Yeah, I'll let it float away
I'll let it float away
I'll let it float away

I'll tell you a story about you and me
Stuck on the water and the waves are getting deep
They scream that only I can breathe
They toss out the mask but it's a little out of reach

Yeah, I'll let it float away
I'll let it float away
I'll let it float away, float away, float away
Yeah, I'll let it float away
I'll let it float away
I'll let it float away

There isn't any more to say
If you're not with me, I'd rather not be saved
There's no decision to be made
If you're not with me I'll just let it float away

I'll let it float away
I'll let it float away
Yeah, I'll let it float away, float away, float away
Yeah, I'll let it float away
I'll let it float away
I'll let it float away

Yeah, I'll let it float away
I'll let it float away
I'll let it float away, float away, float away
Yeah, I'll let it float away
I'll let it float away
I'll let it float away
I'll let it float away
I'll let it float away, float away
I'll let it float away
I'll let it float away
I'll let it float away

I'll let it float away
I'll let it float away
I'll let it float away, float away
I'll let it float away
I'll let it float away
I'll let it float away
