

Follow Me

Grabbitz

My time is close to coming
Do I stand still or try to fight?
Follow me into the sky
Let's hold our breath till we die
I just wish it was for something
Follow me, follow me
We can take this city on
Follow me, follow me
(This is what you're waiting for)

(This is what you're waiting for)
(This is what you're waiting for)
(This is what you're waiting for)
(This is what you're waiting for)

(This is what you're waiting for)
(This is what you're waiting for)
(This is what you're waiting for)
(This is what you're waiting for)

Follow me, follow me
(This is what you're waiting for)
Follow me, follow me

My eyes are close to shutting
This is the turning point tonight
Follow me into the sky
I'm glad these clouds are so high
I'm not jumping off of nothing
Follow me, follow me
I can change forevermore
Follow me, follow me
(This is what you're waiting for)

(This is what you're waiting for)
(This is what you're waiting for)
(This is what you're waiting for)
(This is what you're waiting for)

(This is what you're waiting for)
(This is what you're waiting for)
(This is what you're waiting for)
(This is what you're waiting for)

Follow me, follow me
(We can take this city on)
Follow me, follow me
(This is what you're waiting for)
Follow me, follow me
(We can take this city on)
Follow me, follow me
(This is what you're waiting for!)

All in all, there's really nowhere else for you to go
All in all, there's really nowhere else for you to go
All in all, there's really nowhere else for you to go (Follow me, follow me)
All in all, there's really nowhere else for you to go
