Will I become what I became again?  
Will I become what I became when we were only friends?  
If not I think I might just ride again  
'Cause I remember when you said  
It's the smartest way if all we stay is friends  
(We stay is friends)  
I remember when you said  
It's the smartest way if all we stay is friends

It's the smartest way if all we stay is friends  
It's the smartest way if all we stay is friends  
Will I become what I became again  
Will I  
Will I  
Will I become what I became when we were only friends  
Will I  
It's the smartest way if all we stay is friends

Will I become a style or just a trend?  
Will I become the nothingness  
That you would call your friend?  
If not, I think I'll play this game again  
'Cause I remember when you said  
It's the smartest way if all we stay is friends  
'Cause I remember when you said  
It's the smartest way if all we stay is friends

It's the smartest way if all we stay is friends  
It's the smartest way if all we stay is friends  
Will I become what I became again  
Will I  
Will I  
Will I become what I became when we were only friends  
Will I  
It's the smartest way if all we stay is friends
