

Get Out

Grabbitz

I talk to myself
When there's no one else around
I say it's not my fault, I say it's not my fault
I'm lost in my mind (Lost in my mind)
Stuck in this coffin of mine
I gotta try to get out
You gotta help me get out
You gotta help me get out

You gotta help me get out
(You gotta help me get out)
You gotta help me get out
(Ohh, you gotta help me get out)
You gotta help me get out, out, out, out, out (Get out)
You gotta help me get out, out, out, out, out
You gotta help me get out!

You gotta help me get out (You gotta help me get out)
You gotta help me get out (You gotta help me get out)
You gotta help me get out, out, out, out, out (Get out)
You gotta help me get out, out, out, out, out You gotta help me
get out (You gotta help me get out, You gotta help me get out)

I'm sick when I'm home
I find myself kicking the stones around
When silence gets loud
You gotta find a way out

You gotta help me get out
(You gotta help me get out)
You gotta help me get out
(Ohh, you gotta help me get out)
You gotta help me get out, out, out, out, out (Get out)
You gotta help me get out, out, out, out, out
You gotta help me get out!

You gotta help me get out (You gotta help me get out)
You gotta help me get out (You gotta help me get out)
You gotta help me get out, out, out, out, out (Get out)
You gotta help me get out, out, out, out, out You gotta help me
get out (You gotta help me get out, You gotta help me get out)
