Grabbitz

So put your put your hands up in the air  
I don't want to see them anywhere  
But in the air  
So put your put your hands up in the air  
I don't want to see them anywhere  
But in the air

Hands up  
So put your

So put your put your hands up in the air

If we remain confined on planet earth  
Sooner or later we will destroy ourselves  
The only long term survival plan that works  
Is to spread out into space

The sooner we start, the better  
Do we need to do it yes or no by the end of this section?  
It would be a good idea

What are we not doing to prevent these disasters that we absolutely, should be doing?  
Not acting old sufficient urgency about climate change  
You think we will, survive?  
I cut my tears but  
You have my sympathy
