

I Think That I Might Be Going Crazy

Grabbitz

I can go for steady hitting all day
Chain smoking my way to a hallway view
I think that I might be going crazy
I think that I might be going crazy
I'm dreaming of my momma every night now
And a couple other things that I'd rather not say
I think that I might be going crazy
I think that I might be going crazy

I think that I might be going crazy
I think that I might be going crazy
I think that I might be going crazy
I think that I might be going crazy

I'm an open paperback
You can read me all the way through
In the middle it's a little spacey
I wish that somebody would save me
Ten years now, it's all a wash
But who am I kidding? Not you
You don't wanna be my baby
'Cause I think that I might be going crazy

I think that I might be going crazy
I think that I might be going crazy
I think that I might be going crazy
I think that I might be going crazy

You can make my day (I think that I might be going crazy)
(I think that I might be going crazy)
I stole your rays, now you're gray (I think that I might be going crazy)
(I think that I might be going crazy)

I could go for steady hitting all day
Chain smoking my way to a hallway view
I think that I might be going crazy
I think that I might be going crazy
I've been dreaming of my momma every night
And a couple other things that I'd rather not say
I think that I might be going crazy
I think that I might be going crazy

I think that I might be going crazy
I think that I might be going crazy
I think that I might be going crazy
I think that I might be going crazy

I think that I might be going crazy
I think that I might be going crazy
