

## In The Dark

Grabbitz

I wish you didn't care  
I wish you'd notice if I wasn't there  
What if I did disappear?  
Would you find me?  
Would you find me in the dark?

In the dark  
Find me in the dark  
Dark  
In the dark

I'm packing up my mistakes  
I'll send you some  
Back and forth fighting like a pendulum  
Swinging until my head is numb  
I lost faith in all the best of them

So catch me hiding out in a dark place  
With no direction of  
North, east, south, west  
Up, down, right, left  
Side, side, front, back  
4D tesseract  
Cut scene, that's a wrap  
From finish to start  
'Cause all beginnings and endings are never so far apart  
Inside the dark

In the dark  
Find me in the dark  
Dark  
In the dark

I wish you didn't care  
I wish you'd notice if I wasn't there  
What if I did disappear?  
Would you find me?  
Would you find me in the dark?  
Dark

In the dark  
Find me in the dark  
Dark  
In the dark
