

# Let It Bloom

Grabbitz

I get a real good look at all of you  
And feel no fear, that's why I'm here  
I'm gonna try and get the shitty things  
Out of my head, out of my head

Out of my head  
Out of my head  
Out of my head

Put your hands up, start singing  
Never put 'em down, leave 'em hanging  
Maybe shed a tear, I'm begging  
I'm begging you  
The wheels in your mind gonna slow down  
The grips on your heart letting go now  
And everything you need gonna show now  
I'm telling you to let it bloom

I'm telling you  
To let it bloom  
I'm telling you

Give me something I could never forget  
Take a pill out my pocket and take the hole out my chest  
Take my spirit away from the dark and clear it from pain  
And take my problems and blur 'em until they're fading away  
I'm really fearing the fight and I'm fearing I might  
Run into killers on my way to spread my wings in the night  
There's colors in my eyes and fire in the sky  
I'm pretending that I'm flying

Put your hands up, start singing  
Never put 'em down, leave 'em hanging  
Maybe shed a tear, I'm begging  
I'm begging you  
The wheels in your mind gonna slow down  
The grips on your heart letting go now  
And everything you need gonna show now  
I'm telling you to let it bloom

To let it bloom  
I'm telling you  
To let it bloom  
To let it bloom  
I'm telling you  
Out of my head  
Out of my head  
Out of my head  
Out of my head  
Out of my head  
Out of my head  
Out of my head  
Out of my head
