

# Pain Killer

Grabbitz

Every day becomes the same  
Hate myself, I can't complain  
Now I'm numb and you're to blame  
My new normal feels so strange

Kill my pain 'cause it's killin' me  
And sometimes that's okay  
The pills are fake, they don't do to me  
What you do to my brain  
What you do to my brain  
When nothing feels the same  
Come on over, kill my pain  
Come on over, kill my pain

Kill my pain  
Kill my pain  
Kill my  
Kill my pain

What you do to my brain  
When nothing feels the same  
Come on over, kill my pain  
Come on over, kill my pain

It's been a while since you've been gone  
It's got me lonely and withdrawn  
Just come back for one more day  
And give me one more chance to say

Kill my pain 'cause it's killin' me  
And sometimes that's okay  
The pills are fake, they don't do to me  
What you do to my brain

What you do to my brain  
When nothing feels the same  
Come on over, kill my pain  
Come on over, kill my pain  
Come on over, kill my pain  
Come on over, kill my pain

Kill my pain  
Kill my pain
