

Roam With You

Grabbitz

Now that things are different
I keep seeing different faces
Different people in my circle
In a whole lot of new places
But I long for the places that I used to roam
I still long for the places that I used to roam

I guess it's not terrible but missing you's unbearable
And everyone seems stupid and the whole world's gotten shit and
I still long for the places that I used to roam
Oh, that I used to roam
Oh, that I used to

Ooh, when I used to roam with you
Aah ooh, when I used to roam with you
I feel new, but I wish I was thrown into
All the places that I used to roam with you, roam with you
Roam with you
Roam with you

Dreams, I've only a few
And they're always with you
Yeah, they're always with you

I wish you could see me, now I'm at the doors, I'm knocking loud
I'm perfect on my surface but it's worthless if you're not around
I long for the places that we used to go
To when we used to go, oh, when I used to

Ooh, when I used to roam with you
Aah ooh, when I used to roam with you
I feel new, but I wish I was thrown into
All the places that I used to roam with you, roam with you

All my dreams, I've only a few
But they're always with you
Yeah, they're always with you

All my dreams, I've only a few
And they're always with you
Yeah, they're always with, they're always with
Yeah, they're always with
Yeah, they're always with me when they're with you
