

Teleport

Grabbitz

Tough luck, I'm a psychopath
I've been stomping on the beat since my high school raps
I get loaded off a sip of that white oak cask
I've been floating and you'll probably need a lifeboat raft

Calm, cool, collected and a little pissed off
Got no watch on my wrist and I ain't taking it off
It reminds me that saving it can only do more harm
Time isn't real and now it's written on my forearm

Oh, I wish that I could teleport to you, baby
When they gonna figure that out?
It makes me wanna scream and I shout
Yo, when they gonna figure that out, oh

Oh, I wish that I could teleport to you, baby
When they gonna figure that out?
It makes me wanna scream and I shout
Yeah, when they gonna figure that out, oh

Heads up, I'm piece of shit
But it's only till the beat when I steam roll it
I can down to the new sound, ice cold spit
If it ever left my mouth, it would freeze my lips

I'm sick, I'm a parasite
Take my love and wear it right
If your brain was on a drive I'd need a hundred terabytes
Doesn't all of it sounds so heavenly? You go through the airwaves
And that's how you get to me

I wish that you could teleport to me, baby
When they gonna figure that out?
It makes me wanna scream and I shout
Yo, when they gonna figure that out, oh

Oh, I wish that you could teleport to me, baby
When they gonna figure that out?
It makes me wanna scream and I shout
Yeah, when they gonna figure that out, oh

Oh, I wish that I could teleport to you, baby
When they gonna figure that out?
It makes me wanna scream and I shout
Yeah, when they gonna figure that out, oh

Oh, I wish that I could teleport to you, baby
When they gonna figure that out?
It makes me wanna scream and I shout
Yeah, when they gonna figure that out, oh

Speed of light, yeah, I need it right, now
Speed of light, yeah, I need it right

Oh, I wish that I could teleport to you, baby
When they gonna figure that out?
It makes me wanna scream and I shout

Yeah, when they gonna figure that out, oh

Oh, I wish that I could teleport to you, baby
When they gonna figure that out?
When they gonna figure that out?
When they gonna figure it out, oh

Oh, I wish that I could teleport to you, baby
When they gonna figure that out?
It makes me wanna scream and I shout
Yeah, when they gonna figure that out, oh

Oh, I wish that I could teleport to you, baby
When they gonna figure that out?
It makes me wanna scream and I shout
Yeah, when they gonna figure that out, oh

Speed of light, yeah, I need it right, now
Speed of light, yeah, I need it right
