

# Way Too Deep

Grabbitz

I see this storm come rolling in  
But you don't know me like you say you do  
Will I run and find myself  
Or will I bite the dust and stay with you?

You can help me breathe but only if I let you  
I wanna let you in but easily forget you  
Try to settle down and try to worry less  
'Cause when we face the eye I hold you in my chest

All my life  
I've been so cold  
I break the hourglass  
And watch time unfold  
And I try to make it back  
In this raging sea  
'Cause I'm way too deep  
'Cause I'm way too deep

'Cause I'm way too deep  
'Cause I'm way too deep

And now my walls come closing in  
'Cause I just lost my friend so close to me  
They say find happiness in faith  
What the hell is that supposed to mean to me?

When everything is gray and nothing is in color  
Believe me when I say I'm not like any other  
I try to settle down and try to get some rest  
You lay with open eyes, head against my chest

All my life  
I've been so cold  
I break the hourglass  
And watch time unfold  
And I try to make it back  
In this raging sea  
'Cause I'm way too deep

All my life  
I've been so cold  
I break the hourglass  
And watch time unfold  
And I try to make it back  
In this raging sea  
'Cause I'm way too deep  
'Cause I'm way too-

All my life  
I've been so cold  
I break the hourglass  
And watch time unfold  
And I try to make it back  
In this raging sea  
'Cause I'm way too deep  
'Cause I'm way too deep
