

# toothbrush

Grace Davies

I threw away your toothbrush  
Cos I realised it's useless  
No, you ain't coming back to me  
To keep it is embarrassing  
And I don't wanna see it

So I poured away your aftershave  
Took down our picture from the microwave  
And your T-shirt that I sleep in  
Wish I could but I can't keep it  
No, I don't want reminders  
Of a life you left behind us but

What do I do with your side of the bed?  
What do I do with your face in my head?  
What do I do if I meet someone else?  
And I kiss them wishing I was kissing you instead

How do I get over you when you're all over all I do?

My phone's been lighting up at night  
But it's never you just saying 'hi'  
And right at the beginning  
Blocked your number then undid it  
'Cause I want to know if you're alright

In every corner of this room  
Are memories of me and you  
And I'm sick of these reminders  
Of a life you left behind us  
So I call from under covers  
'Cause I wonder if you wonder oh

What do I do with your side of the bed?  
What do I do with your face in my head?  
What do I do if I meet someone else?  
And I kiss them wishing I was kissing you instead

Who do I look for looking through my phone?  
Who's gonna understand me even when I don't?  
What do I do when I write my best song?  
And I'm crying in the car 'cause I can't play it to no one

How do I get over you when you're all over all I do?

How do I get over you? H-how do I get over you?  
How do I get over you? I need to get over you but...

What do I do with your side of the bed? (Oh yeah)  
What do I do with your face in my head?  
What do I do if I meet someone else?  
And I kiss them wishing I was kissing you instead

Who do I look for looking through my phone?  
Who's gonna understand me even when I don't?  
What do I do when I write my best song?  
And I'm crying in the car 'cause I can't play it to no one

How do I get over you when you're all over all I do?  
How do I get over you? H-how do I get over you?  
(I threw away your toothbrush)  
How do I get over you? I need to get over you but...

How do I get over you? H-how do I get over you?  
(I threw away your toothbrush)  
How do I get over you? I need to get over you
