

Disappear

Grace Gaustad

You probably don't have the worst intentions
You just
Know how to hurt me the best
From a distance, a distance

I never thought you'd make me cry
But there's nothing behind your eyes
Got my reasons
I wish I

I could make you disappear
Tell myself I never cared
Trying to cut you out
Like a stain in my carpet
Weeds in my garden
I wish I
I could make you disappear
Keep you anywhere but here
You're so hard to hate when I'm
Safe in your arms now I'm counting scars
I wish I
I could make you disappear
I could make you disappear

Find you in somebody else
Without all, the bad parts
I'm doing this for myself
I can't fix, who you are

I never thought you'd make me cry
But there's nothing behind your eyes
Got my reasons
I wish I

I could make you disappear
Tell myself I never cared
Trying to cut you out
Like a stain in my carpet
Weeds in my garden
I wish I
I could make you disappear
Keep you anywhere but here
You're so hard to hate when I'm
Safe in your arms now I'm counting scars
I wish I
I could make you disappear
I could make you disappear

Always end up with the wrong obsession
Keep on walking in the wrong direction
Maybe this is where I learn my lesson
Leave no question

I could make you disappear
Tell myself I never cared
You're so hard to hate when I'm
Safe in your arms now I'm counting scars

I wish I
I could make you disappear
