

Human

Grace Gaustad

I've been going up and down
You've been going left to right
They've been moving side to side
Took another a pill today
And no, it didn't make me change
Just as bad as yesterday

Been doing things different since you're not around
Had to learn how to swim since you left me to drown
I've been tryin' to do things by myself
But here's my cry for help
The monsters have gotten too real

And I'm only human
(I'm only, I'm only, I'm only)
And I'm only human
(I'm only, I'm only, I'm only, I'm only human)

Now I watch the ghost of you
Super simple, super cool
It's hard to judge the worst
When you didn't know the best
But I do (I do)

Been doing things different since you're not around, yeah
Had to learn how to swim since you left me to drown
I've been tryin' to do things by myself
But here's my cry for help
The monsters have gotten too real

And I'm only human
(I'm only, I'm only, I'm only)
And I'm only human
(I'm only, I'm only, I'm only)
And I'm only human

Hey you, it's me again
I just called to check that you're still alive
I think I lost myself somewhere along the line
Chasing you into a world I didn't know
A world I never wanted

I'm all on my own again

Now I watch the ghost of you
It's all gone and I mine is too
(I'm only human)

I've been going up and down
You've been going left to right
They've been moving side to side
Took another a pill today
And no, it didn't make me change
Just as bad as yesterday
