Into The Dark

Grace Gaustad

I asked you to tell me a lie
It's easier than the truth I can't deny
I don't wanna believe that you're right
But stick sandstones never kept me alive

Free my mind
Chase me into another life
Free my wings
I've been dying to breath

Someone run into this dark and save my life tonight
I swam a little too far, I can't stand up right
I know it shouldn't be this hard but this I know it well
Someone run into the dark and save my life tonight

Baby I just don't wanna fall
If you hear I feel less alone
What it fell in this I give my throne
To leave you here it seems a way to wrong

Free my mind
Chase me into another life
Free my wings
I've been dying to breath

Someone run into the dark and save my life tonight
I swam a little too far, I can't stand up right
I know it shouldn't be this hard and this I know it well
Someone run into the dark and save my life tonight

Someone run into the dark and save my life tonight
I swam a little too far, I can't stand up right
I know it shouldn't be this hard and this I know it well
Someone run into the dark and save my life tonight
