

Oxygen

Grace Gaustad

You saw the best
When I could hardly stand
To look at myself
We made a pact
One day we'd look back on this
The beauty of an optimist

I fear for the day you're no longer around
When all I have left is an empty house
Will I talk to walls or will they come down?
Come down

Just hold on to one more night
I hope my kids get meet you
They deserve to know who
Probably just saved my life
You have always been my oxygen
When I didn't wanna breathe again
Breathe again
Oxygen

You paint my walls
Shades of pink, red, & blue
Paint the kitchen purple too
You're always home
But it's home cause your there
And that's all I care about

I fear for the day you're no longer around
When all I have left is an empty house
Will I talk to walls or will they come down?
Come down

Just hold on to one more night
I hope my kids get meet you
They deserve to know who
Probably just saved my life
You have always been my oxygen
When I didn't wanna breathe again
Breathe again
Breathe again
Oxygen

Oxygen
Oxygen
Oxygen
When I didn't wanna breathe again
You were my oxygen
