

# Ragdoll

Grace Gaustad

I did everything right  
How reassuring was I?  
When you asked me if I meant it  
I told you that I dreamt it  
Into my life  
But all of my light  
Got swept under the mattress  
I made friends up in the attic

In the back of the cupboard  
That you barely remember  
Next to your favorite sweater  
But you found something better

So leave it to me  
To smile as I fall  
Cause nobody's better at the circus  
Just watch me  
I will run in circles  
Trying to be  
Someone you love  
Honey I will change my colors to nothing  
As long as I can be one of your rag dolls  
One of your rag dolls

Pick me off of the shelf  
Dust me off with your mouth  
Let me play with all the jewels  
And crown myself the fool for falling back in  
Believing again  
In your empty words of romance  
I found myself a slow dance

In the back of the cupboard  
That you barely remember  
Next to your favorite sweater  
But you found something better

So leave it to me  
To smile as I fall  
Cause nobody's better at the circus  
Just watch me  
I will run in circles  
Trying to be  
Someone you love  
Honey I will change my colors to nothing  
As long as I can be one of your rag dolls  
One of your rag dolls

Medicines never enough  
To cure when you've fallen in love  
Just look at what I've become  
A floating piece of paper  
Just begging for a stapler

So leave it to me  
To smile as I fall

Cause nobody's better at the circus  
Just watch me  
I will run in circles  
Trying to be  
Someone you love  
Honey I will change my colors to nothing  
As long as I can be one of your rag dolls
