Same Blood

Grace Gaustad

Lying on the bed where you let me down
Sheets never felt so hollowed out

And on the way to the party
Where my lies supposed to end
I still fake with you
I still play all of them

But when the lights go down
And there's nobody left
I'm confronted with me
Don't see who I am

Back when I met you on the wrong side of
Paris
Not where people fall in love
Just where they find their rush
I tried to tell you that I'd never be enough
Shoulda listened to me then
Cause we don't have the same blood AB
Cause we don't have the same blood AB

Always been a standout to a crowd
No good reason they just want me out

And on the way to the party
Where my lies supposed to end
I still fake with you
I still play all of them

But when the lights go down
And there's nobody left
I'm confronted with me
Don't see who I am

Back when I met you on the wrong side of
Paris
Not where people fall in love
Just where they find their rush
I tried to tell you that I'd never be enough
Shoulda listened to me then
Cause we don't have the same blood AB
Cause we don't have the same blood AB

Always been a standout to a crowd
