

Sandman

Grace Gaustad

Cotton candy skies
Only sugar highs
I don't know goodbyes
Only for the day kind
You always come home
I'm never alone
Tuck me into sweet dreams
Tell me that you love me, me, me

And if somebody told me that one day this thing
We have will end
I wouldn't believe them

'Cause we ride another rollercoaster
Not that we're supposed to, but the time isn't really on
My mind
Another round of go karts
Listen to my heart stop as I run away from the end of the night
And we ride 'till we're tired
And the sandman closes our eyes

Wake up to cartoons
I still see the moon
Pool is looking blue
I'd like to keep the view

And if somebody told me that one day this thing
We have will end
I wouldn't believe them

'Cause we ride another rollercoaster
Not that we're supposed to, but the time isn't really on
My mind
Another round of go karts
Listen to my heart stop as I run away from the end of the night
And we ride 'till we're tired
And the sandman closes our eyes

And I fight to stay alive, to be alright
And you go to ride the rides, to live the lie
And if somebody told me that one day this thing
We have will end
I might just believe them

'Cause we ride another rollercoaster
Not that we're supposed to, but the time isn't really on
My mind
Another round of go karts
Listen to my heart stop as I run away from the end of the night
And we ride 'till we're tired
And the sandman closes our eyes
'Cause we ride another rollercoaster
Not that we're supposed to, but the time isn't really on
My mind
Another round of go karts
Listen to my heart stop as I run away from the end of the night
And we ride 'till we're tired

And the sandman closes our eyes
