Grace Ives

There's somethin' in the water, water  
There's somethin' in the water, water

There's somethin' in the water, water  
I'm goin' in now, I'm gettin' it out  
There's somethin' in the water, water  
It's red and it's yellow and it got in my mouth  
I know I can, father, father  
Somethin' in the water, water  
There's somethin' in the water, water  
Don't hold me back 'cause I'm gonna go get it

I know I can father myself, huh  
I know I can father myself, huh-huh  
I know I'd get farther myself, huh, huh, huh, huh, huh-uh
