

# Oasis

Grace Potter

Don't let the sun beat you down, steal your crown  
Hold your head to the ground  
Just keep on walkin'  
Don't let your soul lose control, let you roll  
Down the mountain you've climbed  
Don't let the sand blind your eyes, realize they're only lies  
Just keep on walkin'

Let it cover you with grace  
Let it take you from this place  
And as your heart races, pack your suitcases  
And in the middle of the desert  
There's an oasis

Don't let your bones turn to stone  
'Cause you're feeling so alone  
Just keep on walkin'  
Don't count the miles that you climbed  
Make you go blind, 'cause there's something to find  
Don't hide your eyes from the light  
Just hold on tight, and soon it'll be alright

Let it cover you with grace  
Let it take you from this place  
And as your heart races  
Pack your suitcases  
And in the middle of the desert  
There's an oasis

And you know  
That it's closer than you think  
And you know  
That if you're the first to blink  
Then you know  
You gotta swim before you sink so low

Let it cover you with grace  
Let it take you from this place  
And as your heart races  
Pack your suitcases  
And in the middle of the desert  
There's an oasis
