

# Talk Good

Grace VanderWaal

It sounded so much better in my mind, mind  
I guess I messed it up again this time, time, time  
There's something else that I wanted to say, say  
But my twisted tongue got in the way, way, way

Oooh  
My mouth is moving without thinking  
Oooh  
My brain and mouth on different systems  
Why can't you see my side of things  
I've been thinking 'bout it ever since

I wish I said this, I wish I said that  
But I kinda froze in my tracks  
I wish I said this, I wish I said that  
But I kinda had a panic attack

I wish I could talk good  
I wish I could talk, I wish I could talk  
I wish I could talk good

Rerun the conversation in my head, head  
Think all of the things that I should have said instead

Oooh  
My mouth is moving without thinking  
Oooh  
My brain and mouth on different systems  
Why can't you see my side of things  
I've been thinking 'bout it ever since

I wish I said this, I wish I said that  
But I kinda froze in my tracks  
I wish I said this, I wish I said that  
But I kinda had a panic attack

I wish I could talk good  
I wish I could talk, I wish I could talk  
I wish I could talk good

I wish I could talk good  
I wish I could talk, I wish I could talk  
I wish I could talk good

My words, my mind  
They're worth all your time  
My words, my mind  
They're worth all your time

I don't wanna be a puppet game and caught on your line

I wish I said this, I wish I said that  
But I kinda froze in my tracks  
I wish I said this, I wish I said that  
But I kinda had a panic attack

I wish it went the way it went in my head

But it kinda crushed and burned instead  
Why does it always end up like it is now  
So many wish I could talk good  
I wish I could talk, I wish I could talk  
I wish I could talk good
