

Waste My Time

Grace VanderWaal

Runnin with you it's like we're in a memory
That I'll try to forget when you go up and leave
Walkin slow because the times been running far
Maybe I should grow up, leave you with a scar

You say I love you with an accent
Then I pretend like nothing happened
Tell me won't you miss Manhattan
And even though this is pointless
And even though this is hopeless

I just wanna waste my time
I just wanna waste your time
We can do anything you like
We can talk all night (ooooh)

I'm unsure of you because I know you'll leave
You say you love me but I whisper I don't believe
Stopping moments cause I can't let it be true
This is going no where but I love wasting my time with you

You say I love you with an accent
Then I pretend like nothing happened
Tell me won't you miss Manhattan
And even though this is pointless
And even though this is hopeless

I just wanna waste my time
I just wanna waste your time
We can do anything you like
We can talk all night (ooooh)

Waste my time
Waste your time

You say I love you with an accent
And then I looked away and acted like nothin happened
Tell me honestly will you miss Manhattan
And even though this is pointless
And even though this is hopeless

I just wanna waste my time
And I just wanna waste your time
We can do anything you like
We can talk all night, I'll pretend your mine just waste my time

My darling you have one life
And time will fly
So you should be wise
But for you I'd happily waste mine and
You have one life
And time will fly so
You should be wise
For you I'd happily waste mine
