

Daydreaming

Grace

It's safe to say I'm all the way out here
It's safe to say I'm all the way out
Maybe today I'll tell you how I feel
I daydream about ya baby

Sitting on my brain you pay rent
Surfing on sun rays vibrating
We got history can't fake that
Way you wear them jeans you ate that

Got me out here waiting
You been acting crazy
Beatles on the radio
I see us like a TV show

Roll out of bed then I make ya breakfast
We dance in the kitchen it's so romantic
I fall every time that we conversatin'
I'll be the game if you love to play 'em
All of my eggs in the one basket
Shakespeare in love boy I'm so dramatic
See you with her and it's fucking tragic
Are you happy
I'm just asking

I count clouds like sheep
And I'm not losing sleep
But I do drink too much
When you don't call for weeks

I just fade away
Wish I was your lady
Cause you make
You make me laugh laugh laugh laugh laugh till I cry
And you make me dream dream dream dream dream till I die
Ooh there's a million things we could do
Me and you

We roll out of bed then I make ya breakfast
We dance in the kitchen it's so romantic
I fall every time that we conversatin'
I'll be the game if you love to play 'em
All of my eggs in the one basket
Shakespeare in love boy I'm so dramatic
See you with her and it's fucking tragic
Are you happy
I'm just asking

A breath of fresh air
You came in like you never had to care
You came in like ice
You came in like light
Light

We roll out of bed then I make ya breakfast
We dance in the kitchen it's so romantic
I fall every time that we conversatin'

I'll be the game if you love to play 'em
All of my eggs in the one basket
Shakespeare in love boy I'm so dramatic
See you with her and it's fucking tragic
Are you happy
I'm just asking
