

## Take Care

Grace

We don't touch and you say I'm the one to blame  
You must see that I know you're not innocent  
Lookin' out my window you're so far away  
Ask me if I'm on 'cause I bit my tongue, babe

How can I take care of you?  
Ain't you supposed to take care of me?  
How can I take care of you?  
Ain't you supposed to take care of me?  
There's no room  
I stay quiet  
The bedroom  
Argue bye-bye your issues  
Pacifier  
I see you, I need you

To loosen up the tension  
Take me far away from this dimension  
I got lots of things that need attention  
Push them to the side so I can please you

So how dare you hide  
Easier to say I'm fly  
Now you need me, so I hide it  
Open up my eyes I'm tired  
Listen now I've been tired of swimming in hotel water  
I've been callin' for you  
For you, oh

How can I take care of you?  
Ain't you supposed to take care of me?  
How can I take care of you?  
Ain't you supposed to take care of me?  
There's no room  
I stay quiet  
The bedroom  
Argue bye-bye your issues  
Pacifier  
I see you, I need you

To loosen up the tension  
Take me far away from this dimension  
I got lots of things that need attention  
Push them to the side so I can please you  
To loosen up the tension  
Take me far away from this dimension  
I got lots of things that need attention  
Push them to the side so I can please you
