

Twentyfourseven I be thinking of you
Daydreaming while we sailing the blue
Feels good to be laying with you
That's my baby
How'd you make me fall in love again
Tongue tied when I'm talking to you
Brown eyes what a beautiful view
Sharp mind and you're beautiful too
That's my baby

Boy there's one thing I know for sure
There's some things you did for my soul
Hold me close and please don't let go
You came in and changed up my flow
You're the words to my favorite song
Harmonize the bass in your tone
Lights go off and you're still gon' glow
That's just something they can't control
And if the stars don't shine
I'll light the sky for you
And you don't have to do too much
Just know the rivers of my heart lead right to you
Long as we know what we are
Cause baby

Twentyfourseven I be thinking of you
Daydreaming while we sailing the blue
Feels good to be laying with you
That's my baby
How'd you make me fall in love again
Tongue tied when I'm talking to you
Brown eyes what a beautiful view
Sharp mind and you're beautiful too
That's my baby

Twentyfourseven still ain't enough
Cross the ocean just for your love
Wrapped around your arms feel like heaven
There's no question
Boy there's one thing I can't ignore
There's some things you did for my soul
Hold me close and please don't let go
You came in and changed up my flow

Boy there's one thing I know for sure
There's some things you did for my soul
Hold me close and please don't let go
You came in and changed up my flow
You're the words to my favorite song
Harmonize the bass in your tone
Lights go off and you're still gon' glow
That's just something they can't control
And if the stars don't shine
I'll light the sky for you
And you don't have to do too much
Just know the rivers of my heart lead right to you
Long as we know what we are

Cause baby

Twentyfourseven I be thinking of you
Daydreaming while we sailing the blue
Feels good to be laying with you
That's my baby
How'd you make me fall in love again
Tongue tied when I'm talking to you
Brown eyes what a beautiful view
Sharp mind and you're beautiful too
That's my baby
