

# Don't

GRACEY

You don't even want me, you're just bored  
You don't even smoke, what are you rollin' for?  
Only have to ask and I'll be at your door  
Oh, I still need distance (Ooh, ooh)

You're just tellin' me lies and lies  
To try and get back in my sheets  
Careful what you say, 'cause babe I might believe you  
You can't come inside, we don't need a conversation or the coffee, uh

Don't say you miss me if you don't  
Don't say you love me when you won't  
I always know when you lie to me  
So please, ooh let me go

You got superpowers on the low  
Every mornin' after, I'm invisible  
That's the last time I cancel plans for you  
I dance all night for you  
Oh, it don't make a difference  
Yeah, ayy

You're just tellin' me lies and lies  
To try and get back in my sheets  
Careful what you say, 'cause babe I might believe you  
You can't come inside, we don't need a conversation or the coffee

Don't say you miss me if you don't, yeah  
Don't say you love me when you won't  
I always know when you lie to me  
So please, ooh let me go

Don't say you miss me if you don't, yeah  
Don't say you love me when you won't  
I always know when you lie to me  
So please, ooh let me go  
Ooh let me go

Don't, don't  
Don't tell me lies, I'll break the silence  
Don't, don't  
Might lose my mind and never find it  
Don't, don't  
Don't tell me lies, I'll break the silence  
Now I'm on my own  
Don't say you miss me if you, oh if you

Don't say you miss me if you don't, yeah  
Don't say you love me when you won't  
I always know when you lie to me  
So please, ooh let me go

Don't say you miss me if you don't, yeah  
Don't say you love me when you won't (Ooh, ooh, ooh)  
I always know when you lie to me  
So please, ooh let me go
