

Got You Covered

GRACEY

On a journey, up and up we go
We got stories but they're all for show
You can tell me, when there's no one else
You can tell me, oh-oh (Oh-oh)

Yeah, I know we won't sleep
'Cause we're going so deep
Got your mind on something else
You know that

I'll be with you when you're going through extremes
I got you covered like when we were seventeen
You need to know you're not alone
I still got you covered, still got you covered

I got you covered (I got you, I got you)
I got you covered (I got you)
I got you covered (I got you, I got you)
Still got you covered
Still got you covered

In a hurry to enjoy ourselves
Don't you worry if it's personal
You can tell me when there's no one else
You can tell me, oh-oh, ooh

Yeah, I know we won't sleep
'Cause we're going so deep
Got your mind on something else
You know that

I'll be with you when you're going through extremes
I got you covered like when we were seventeen
You need to know you're not alone
I still got you covered, still got you covered

I got you covered (I got you, I got you)
I got you covered (I got you)
I got you covered (I got you, I got you)
Still got you covered
Still got you covered

I won't leave until it's done
I won't go until they play the last song
I won't breathe until it's done
I won't go until they play the last song

I'll be with you when you're going through extremes
I got you covered like when we were seventeen (Oh, oh, yeah)
You need to know you're not alone (Yeah, yeah)
I still got you covered, still got you covered
I'll be with you when you're going through extremes
I got you covered like when we were seventeen (I got you covered)
You need to know you're not alone (You're not alone, babe)
I still got you covered, still got you covered (Like when we were seventeen)

I got you covered (I got you, I got you)

I got you covered (I got you)
I got you covered (I got you, I got you)
Still got you covered
Still got you covered
