

Feels Like

Gracie Abrams

Oh
We almost got away, we cut it close
The city's getting loud, if I choke
It's only 'cause I'm scared to be alone
Been trying to work it out, you should know

I would do whatever you wanted
We don't have to leave the apartment
Met you at the right time
This is what it feels like

Living in a movie I've watched and
Funny 'cause I couldn't have called it
Met you at the right time
This is what it feels like

Oh
The train was cold, we left Connecticut
We stayed a couple hours, our clothes
Matched enough to throw me off a bit
Your phone was playing Towers, and I

I would do whatever you wanted
We don't have to leave the apartment
Met you at the right time
This is what it feels like

Living in a movie I've watched and
Funny 'cause I couldn't have called it
Met you at the right time
This is what it feels like

And I need you sometimes
We'll be alright

Met you at the right time
This is what it feels like

And I miss you some nights
We'll be alright

Met you at the right time
This is what it feels like

I would do whatever you wanted
We don't have to leave the apartment
Met you at the right time
This is what it feels like
