

Felt Good About You

Gracie Abrams

Felt good about you till I didn't
Crossed lines, past lives, clear vision
Felt good about you
Felt good about you

Felt good about you till I didn't
Sure-fire train wreck, omission
Felt good about you
Felt good about you

Got what you demanded
Picture perfect like you planned it
Can't believe the way we landed
Falling through
Held my breath for your reaction
Like the first time that we happened
We were fighting more than laughing
Black and blue

Felt good about you till I didn't
Fell hard then I lost your interest
Felt good about you
Felt good about you

Felt good about you till I didn't
Bad nights, new girls, misgivings
Felt good about you
Felt good about you

Got me where you want me
In your palm, it's almost funny
All my friends they tried to stop me
Wanting you
But I was never meant to listen
Not until I found a reason
It took all of me to walk away and choose

Felt good about you
You
You
Felt good about you
You
You

Felt good about you
You
You

Felt good about you
Felt good about you

Felt good about you till I didn't
Fought hard through premonitions
Felt good about you
Felt good about you

Felt good about you till I didn't

You felt nice for a bad decision
Felt good about you
Felt good about you

Really got me thinking
Future planning for no reason
There were nights I skipped out sleeping 'cause of you
I had less than half of something
What you gave was what I wanted
Till I realized I felt fuller without you

Felt good about you till I didn't
Felt good about you
