

Full Machine

Gracie Abrams

I'm a rollercoaster
You're a dead end street
But won't you stay for a while
I wish that you'd never leave

I know I know better
You're no guarantee
But if you asked me to run away
I'd go easily

I almost lost it
I'll heal eventually
But faster if you're next to me
Next to me
I'm codependent
But trying hard not to be
I'm better when you're next to me

I'm a shameless caller
You're a full machine
But won't you answer tonight
And say something nice to me
And you don't have to mean it

You can lie to me
But if you asked me to run away
I'd go easily

I almost lost it
I'll heal eventually
But faster if you're next to me
Next to me
I'm codependent
But trying hard not to be
I'm better when you're next to me, next to me

But do you think we could talk?
'Cause I've been trying to tell you
How you're the one that I turn to

But I should probably stop
Instead of forcing a break through
It's just that I'll always choose you

I'm a forest fire
You're the kerosene
I had a life here before you
But now it's burning

I know I know better and
You're ignoring me
Still if you asked me to run away
I'd go easily

I almost lost it
I'll heal eventually
But faster if you're next to me

Next to me
I'm codependent
But I'm trying hard not to be
I'm better when you're next to me, next to me

Do you think we could talk?
'Cause I've been trying to tell you
How you're the one that I turn to (Turn to)

But I should probably stop
Instead of forcing a break through
It's just that I'll always choose you
