

Wishful Thinking

Gracie Abrams

Meet you down at the bottom
Finish a bottle
You know I know all your problems now

Flaked on me back in August
And if I'm honest
You've gotten harder to figure out

I know that you got everything you wanted
I heard a rumor everybody's talking
About you now

I really thought that I could fix this
But nothing's different
How come I'm stuck on thinking you'd grow up?
I really hoped that we'd be passed this
Problems past tense
Is it just wishful thinking that you'd grow up?

Dropped it all in a second
After your message
Do you remember me calling out?

Meet you back in the wreckage
Right where you left it
Do you regret how I see you now?

You said that you got better you saw me
I heard a rumor
It's medicine and molly
You're blacking out

I really thought that I could fix this
But nothing's different
How come I'm stuck on thinking you'd grow up?
I really hoped that we'd be passed this
Problems past tense
Is it just wishful thinking that you'd grow up?
