In my arms  
Or maybe more  
Oh love, you should just live with me  
Pack your stuff  
I'll clear out some drawers

Cause I, I never enjoyed someone  
Being around so much  
I'll never get sick of us  
So love, why don't you break your lease  
And just never ever ever ever leave

Cause you make wanna skip every step  
Be impulsive and hold you in bed  
'Til there's not an ounce of daylight left  
I'm losing myself  
But I'm finding something I like better  
Nothing makes us like us two together
